

Tile Clips

Product Data Sheet

TIL-R's new range of Tile Clips offer the perfect solution for secondary fixing as required by BS 5534:2014 regulations, which state:

- All single-lap (interlocking) tiles must be mechanically fixed at least once with a nail or a clip
- All perimeter tiles must be mechanically fixed at least twice

TIL-R Tile Clips come in two variants:

Tile Clips 1

For flat profile thin leading edge interlocking tiles and interlocking mock plain tiles

Tile Clips 2

For flat profile standard interlocking tiles and most pan tiles

Product features & benefits:

- Single piece, universal tile clips suitable for use with most interlocking tiles
- No nail and clip threading required
- Fast, simple installation
- Does not foul drainage channel thereby allowing free water passage
- Manufactured from Drawn Galvanised Carbon Steel which remains more rigid than Stainless Steel
- Fully compliant to BS 5534:2014
- Tested by BRE for wind resistance performance
- 15 Year product warranty & included in SIG Roofing's ONE Warranty

Area of application

Suitable for use on pitched interlocking tile roofs at all exposures throughout the UK.

Material

Drawn Galvanised Carbon Steel.

Product Codes

Tile Clips 1 For flat profile thin leading edge interlocking tiles and interlocking mock plain tiles
10524267 / 280170025

Tile Clips 2 For flat profile standard interlocking tiles and most pan tiles
10524271 / 280170030

Weight (per carton)

Tile Clips 1 Approx. 6.3 kg

Tile Clips 2 Approx. 7.4 kg

Packaging

1000 clips per carton, 100 cartons on a pallet.

Fixing notes:

- Lay tiles as specified, make sure vertical and horizontal lines are correct
- Locate flat top of the clip onto the channel of the interlock
- Locate the clip nail point onto the top edge of the batten (25mm)
- Nail down the clip with a hammer firmly against the top edge of the tile on the course below
- Handle with care due to sharp point on clip
